KEY SKILLS: Android, Java, iOS, Objective C, Web Services (REST, JSON, SOAP, XML), Web Development (HTML, CSS), DBMS (MySQL, PostgreSQL, SQLite)

EXPERIENCE

- May 2016 – August 2016 **Mobile Developer (Android)** – minusCode
- Developed an Android App from scratch until production, on a freelance contract. The app was based on a paper chase game concept, including geofencing capabilities as well as intricate caching and synchronizing mechanisms;
- September 2015 – present **Founder (& Android Developer)** – Captain
- In the process of founding a company based on a mobile app that will allow for easy scheduling of amateur sport games between friends. Besides having designed and developed the concept of the Apps and company from scratch, responsibilities also include team management, business plan development, various public presentations and the presence a number of entrepreneurship events;
- October 2014 – May 2015 **Mobile Developer (iOS/Android)** – Cycloid
- Worked on a complete redesign of Vodafone Portugal's companion TV app (TV Net Voz), both on [Android](#) and [iOS](#), having quickly responded to the team's needs without much previous experience on iOS;
- Dec 2011 - June 2014 **Mobile Developer (Android)** - PT Sistemas de Informação
- Main responsible for both the redesign and complete refactoring of an existing Android solution ([MEO Parking](#)), as result of constant scrutiny to the latest UI/UX trends of the Android platform;
 - Developed, on separate occasions, Android applications integrated with a Web Service Core and a Web CMS;

EDUCATION

Cambridge Proficiency Exam (CPE) - University of Cambridge

BSc & MSc in Communications Networks Engineering, Instituto Superior Técnico (2012)

- Final Grade: 14/20
